Research Infrastructure and Field Leadership

Designed and led primary data collection across four countries, covering more than 45,000 households and multiple multi-round randomized controlled trials, including long-term panel surveys, phone surveys, and cascading value chain surveys.

Ethiopia

- Improving Incomes of Coffee Farmers (IICoF) in Jimma project evaluation (RCT), baseline survey (2,995 households), conducted Dec 2023–Jan 2024.
- IMPEL-SPIR-2 evaluation (RCT), baseline, midline and endline surveys (~3,000 households each), conducted Aug 2022–Jun 2025.
- Addis Ababa Food Consumption and COVID-19 surveys, including baseline (~900 households), endline (900 households), COVID-19 phone surveys (4 rounds, ~600 households), and follow-up phone/in-person surveys (800 households), conducted Sept 2019–Sept 2021.
- Vegetable value chain phone surveys (359 farmers, 30 wholesalers, and 210 retailers), conducted Mar–Aug 2021.
- Dairy value chain phone surveys (378 farmers, 63 wholesalers, and 168 retailers), conducted Jun–Sept 2021.
- Productive Safety Net Programme (PSNP) Phase-4 evaluation of nutrition components, baseline and endline surveys (~2,600 households each), conducted Mar 2017–Aug 2019.
- WFP Fresh Food Voucher Program evaluation (RCT), baseline and endline surveys (580 households), conducted Dec 2017–Dec 2018.
- Feed-the-Future (FtF) evaluation surveys, midline (6,696 households) and endline (3,886 households), conducted 2015–2018.
- Evaluation of the delivery of humanitarian aid in Ethiopia (1,260 households), conducted 2018.
- PSNP Phase-4 evaluation, baseline and midline surveys (9,270 households), conducted 2016–2018.
- PSNP Phase-3 evaluation, endline survey (5,287 households), conducted 2014.

Somalia

- Building Pathways Out of Poverty for Ultra-poor IDPs and Vulnerable Host Communities in Baidoa (RCT evaluation), baseline, midline, and endline surveys (~4,000 households), conducted 2022–2024.

Malawi

- Capital injection intervention evaluation (RCT), including baseline survey (~3,200 households) and 2 interim phone surveys (1,800 households), conducted Oct 2024–Jan 2025.

Tanzania

- The 7th wave of the Kagera Health and Development Survey (KHDS-7), tracking ~3,000 adults of the G2 cohort and their children, with cardiometabolic disease risk measurement embedded into the survey. In the field 2026–2028.
- The 6th wave of the Kagera Health and Development Survey (3,313 households), conducted Apr–Dec 2010.

Teaching and Doctoral Training

Courses and doctoral training
